

MEETING OF NOVEMBER 5th, 1964:

Jay Levenson reported on the first meeting of the Constitution Committee, at which the idea of a Grievance Committee was proposed. The main function of this committee, as proposed, would concern the mid-year elections of Council officers by petition, an idea currently under discussion. Any student objecting to the policies of Council officers would draw up a petition specifying his objections and would present it to the Grievance Committee, made up of the seven members of the Student Council excluding officers. The accused Council officers would have a right to defend himself. Any signees of the petition could be called before the Committee. The Committee would then pass on the petition. An approved petition would cause a re-election for that Council office at midyears.

A motion was made by Sandy Heinlein that the Student Committee be reestablished; that it be made clear to the Student Body that the Committee welcomes students to discuss problems with it; and that the Committee also have the power to call students before it.

Jeffrey Gale proposed an amendment to the motion to add the phrase "and that the Student Committee be allowed to mediate between students and faculty"; the amendment was passed unanimously.

The main motion, as amended, was passed unanimously.

Dr. Heinlein reported that the Faculty has accepted the Student Life Committee's report with several modifications.

MEETING OF NOVEMBER 12th, 1964:

The Council expressed its approval of the Lunchroom Duty program.

Pres. Gottlieb reported on the plans of the Volunteer and Poster Committees. He mentioned the possibility of a poster contest on a suitable theme for a cash prize.

Barry Adler and Larry Jacobs reported on the committee they have formed to build bleachers for the athletic fields. They will get bids this week from various contractors for different types of structures.

Sandy Heinlein moved to form a Student Council committee to look into the problem of building bleachers for the athletic fields. On a motion by Steve Patt, passed unanimously, this motion was tabled. As it stands now, therefore, this project is still in the hands of the freshmen committee.

JAY LEVENSON, SEC'Y.

EXCERPTS FROM THE CAMPAIGN SPEECH OF ROY MITTMAN:

"...At the present no effort has been made by the Council to raise additional funds. Many Council activities have suffered from not having enough money...possible new programs include the serving of refreshments at games and supplying benches for the athletic fields. More money could also be put into dances...

"I propose the following methods for raising additional funds:... an endowment fund...could be established in the Council's name...we could establish a student store...or the Council could furnish all books needed after the start of the school year...

"I am aware of the need for an improvement in the interest and enthusiasm of the students in school affairs, and I feel that it is the responsibility of the Council to inspire such enthusiasm...I believe the programs that I am offering will encourage the students to take more interest in their school and its functions.

ROY MITTMAN, TREASURER
