ADVERTISING IN YE DIAL HITS NEW HIGH

Year book is definitely started

Work on Ye Dial made great progress this week as the advertising campaign came into the home stretch. The advertising staff has been working with a will for the last two weeks and has undertaken to provide more revenue from this source than has been gotten for five years, so that the year book can be made to pay for itself. Already \$310 has been received, which is more than had been raised at the end of last year's campaign. The staff will not be satisfied until the \$450 mark is reached, and the members of the student body are asked to see their friends and get all the ads they can, so that Ye Dial can be put over in a big way.

Many of the pictures have been taken and the remainder of them should be finished by the end of this week. The literary side of the book will get under way in the next few days, and everybody interested in writing is invited to see Mr. Brower who will give out the assignments.

Biography of Mr. Ernest A. H. Caverhill.

Mr. Caverhill, who has been with us now for a period of two years, and during that time has earned the reputation of making Latin an interesting subject for all his pupils, was born in Beamsville, Canada. He gained his high school education at the St. Catherine's Collegiate School, which is also in Canada. Mr. Caverhill graduated from Trinity College, University of Toronto with a Bachelor of Arts degree.

Upon his graduation he enrolled in the British Regular Army as a university candidate, and duly received a commission of the Royal Field Artillery. Mr. Caverhill went abroad during the World War as a First Lieutenant, remaining there for four years. After the Armistice he returned to the United States and went to Virginia where his mother and father were living. There he secured the position of Special Officer of the U.S. Shipping Board. His main duty pertained to catching thieves who attempted to rob materials off the boats laid up in the dock. After two years of this work his teaching career commenced, when he was secured as a teacher of Latin, English, and History at the Driver Second Congressional District School in Va., where he stayed one year.

Next he taught geography, arithmetic, and French to both elementary and high school students at the St. Christopher's School in Richmond. From there he went to the Indiana Pa. High School and continued his profession for three years until 1927, when he went to Plattsburg High School in N.Y. There also at the close of a period of three years,

To Cornell are going Bob Stengel for a pre-medical course and Jack Dreifus for Engineering. Lehigh will get Roy Greene, who will take a Business Course and Al Holzl who will try his hand at Mechanical Engineering. Both Jesse Betterton and Leroy Greenspan will go to the University of Pennsylvania for Business Courses at the famous Wharton School of Business and Finance.

Hugh Preacher intends to go to the Cummings Diesel School, and Bill Campbell will go to Duke for a business course next fall. Bill Cushing wishes to go to Georgia Tech for Engineering, and Joe Shapiro has his heart set on the Harvard Business School. Johnnie Meissner will take up Forestry at Michigan State; Bob Freile wants to go to Montclair Teachers, and John Wiese to the Newark College of Engineering. Johnny Starbuck wants to stay down South, so he'll go to the University of North Carolina for a Business Administration Course. Dan Hiestand will become an engineer at Ohio State, and Joe Miller will take up Forestry at Penn State. Bill Vincent will go to Springfield for a course in Physical Education; Bill Meszaros will take up Bacteriology at Temple. Archie Smith intends to take a pre-medical course at Washington and Lee, and Paul Croonquist will be another exceptional engineer when he gets out of West Point. Paul Cook wants to go to Yale to take up Journalism and Dick Stacey wants to be an Engineer, but is undecided where he shall go.

The most desired course, having eleven applicants, is Engineering; with a close second in Business Administration. Next come the pre-law and pre-medical courses with four applicants each. Forestry, Journalism, and Chemistry follow with two applicants each. The other courses; Printing Bacteriology, Physical Education and cultural have one applicant each. There are only two who are undecided about their future vocation.

In all probability this list of Schools will be increased in the future, for several of the students have not as yet expressed their preferences.

# TRETSEY MAKES ALL-STATE BASKET BALL TEAM.

Last week Joe Tretsky, the mighty mite, was selected by the sports writers of New Jersey for a berth on the All High and Prep School second basketball team. he went to the Arnold Country Day School in Pittsburgh, and continued to teach. In 1933 he left the Arnold School and returned to Virginia, where until 1936 he was engaged in extension work in English and French for the College of William and Mary. Finally, in the fall of that same year he came to Rutgers Prep, where he has been up to this time.

During the course of his eventful life, Mr. Caverhill married Miss Avis Hope Hopper, a native of Claremont, Virginia. Mrs. Caverhill is a relative of the late DeWolfe Hopper. Mrs. Caverhill attended the Claremont High School and after graduating went to the Lafayette High School, in Norfolk, Virginia, where she took up a secretarial course.

We certainly hope that Mr. Caverhill meets with as much success teaching in the future as he has met with in the past.

# WARDLAW NINE TRIUMPHS OVER PREP

Klucy makes only score and half the hits

Prep received its second setback at Plainfield last Thursday, when our batsmen met a strong Wardlaw nine. The Wardlaw School hit timely behind the four hit pitching of Dexter to notch a 10 to 1 victory.

Our lone tally was made in the fourth inning when Johnny Klucy tripled and scored when Ed Marvin, hit by a pitched ball, was being thrown out in an attempt to steal second. Klucy also connected for a single to collect half the hits carved from the offerings of Dexter.
