Abuse of Weekend Permission Leads To Stricter Rule

Blanket Permission Must Be Renewed Every Week. Cars Restricted

Because of the infractions of leave of absence, Mr. Shepard was forced to discontinue all blanket permissions for week-ends. Letters of permission must be in the hands of the authorities by the Thursday evening preceding the leave.

Mr. Shepard stated that it is a privilege and not a right for a student to go away for the week-end. Consequently, the boy's school-work must be satisfactory to secure permission. Telephone calls and telegrams will not be acceptable requests for permission, for they are not always authentic.

Boys who wish to invite friends home must have their parents write to Mr. Shepard or Mr. Rudy stating their desire to have this friend visit them, as well as having the written permission of the friend's family to visit the boy. No permission will be granted for a boy to stay in New Brunswick.

No student will be allowed to ride in a car not under the supervision of a faculty member or a member of the boy's family.

Boys who leave school for the week-end may not return to the campus during their leave without forfeiting the balance of that leave. All absentees must return to the school before 7:30, Sunday evening.

Dr. Tweedy Speaks At Rutgers Chapel

Dr. Henry H. Tweedy, of the Yale Divinity School, spoke in the Kirkpatrick Chapel on Sunday, March 3. As the text for his sermon, the Doctor took the 28th Chapter of I Samuel, which concerns the life of Saul.

Saul, the speaker asserted, played the part of the fool. By this Dr. Tweedy meant that Saul did not take the advice of the Lord. He played a selfish game of life, and being blinded by the advantages of his youth, was ruined. Many peoples and nations are like this.

Dr. Tweedy said that there are many ways to play the fool. The first is basing one's life on superstition and the false wisdom of others, which turns out to be arrant folly. The second is a life of vice. Of course, we say that a little indulgence does no harm. That is what a fool thinks, for a little always leads to more. The way of decency is the only true road to happiness. The third is the idea that one's own race is the God-chosen people. We look down on foreigners and call them names. Some of this is natural, but it is nowadays carried to an extreme. The populace idolizes its own nation and starts propaganda and campaigns against the other countries. This is one of the best ways to make a fool of your self. Certainly . . . put your own race before the others, but do not scorn them. That is sheer stupidity.

The next way of playing the fool is to lose one's self control. Temper, within bounds, is one of God's best gifts to man. It provides the incentive for good acts. When wrong is done, temper is what makes us want to right it; out of control, temper fosters trouble. Fear is also a good gift. It

Largest Honor Roll of Year Contains Twenty Students

VACATION DATES UNDERGO CHANGE

According to an announcement in the school catalogue, the Spring vacation begins on Friday, March 22, at 1:15 P. M. However, in view of the fact that this day is Good Friday, Mr. Shepard wishes it to be announced that the Spring vacation will begin on Thursday, March 21, at 1:15 P. M. The ARGO wishes to impress upon the student body the necessity of coming back in good shape.

Three Coaches of Winter Sport Teams Summarize Seasons

The winter sports season ended at Rutgers Prep with all the coaches well satisfied with the showing of their respective teams.

In basketball Mr. Blake stated that his Jayvees played well, and although the team was very inexperienced, they developed as the season progressed.

Mr. Rudy, varsity basketball coach, had little to say on the team's showing during the season. He did say, however, that he was pleased with Captain Bill Harper's work at center, and with Morrison, Potter, Moynihan and Hackett at forwards and that the guard positions were capably handled by Deschu, Miller, Meyers and Updike. He hoped for a much more successful season next year.

Swimming, during the winter months, was Prep's most successful sport. Mr. Holley beamed as he related the victories of the tankmen. Mr. Holley stated that he had never coached a more spirited team; he also said that he was pleased with all the swimmers.

Diving was handled in a more than satisfactory way by Harry Rolfe and Joe Piffath. The swimming events were handled by Pratt, Farley, Waterman, Cramer, Rudolfs, Ruocco, Johnson, Styskal and Hausner.

Soloist Kaskas and Combined Glee Clubs Of Three Universities Give Gala Concert

The combined Glee Clubs of Rutgers, Columbia, and New York Universities and the Hall of Fame singers participated in the fifth concert of the current series given on Monday evening, March 11, at the Rutgers University Gymnasium. Miss Anna Kaskas, contralto of the Metropolitan Opera Association, appeared as the soloist.

The program of songs was representative of the most important trends in choral music, beginning with the fifteenth and sixteenth centuries, the greatest period in the history of this art, and ended with a selection of American folk ballads.

The first group of five songs was conducted by F. Austin Walter of Rutgers University. The first song was "How Brightly Beams the Morning Star" by Nicholli. The next four songs were all in the contrapuntal style and were composed of a number of different melodic strains woven together, their effect depending upon the way in which this is accomplished, "Assumpta est",

Beardslee Leads School Again As Many Shift Rank

Six Receive Honorable Mention. Seniors Have High Ratings

The first month of the second semester saw twenty boys on the honor roll, four more than the sixteen of last month. This is the largest number of the school year. Ten boys from the Senior class, one from the Junior class, seven from the Sophomore class, and two from the Freshman class comprised the twenty highest students. Seven boys received honorable mention.

David Beardslee, as usual, leads the school with a grade of 91. Rod Vandivert came from fourth to second place, and Harvey Miller was third.

HONOR ROLL (Listed in order of rank)

Ninety and above
Beardslee, D., '42
Eighty-five to ninety
Vandivert, R., '42
Miller, H., '40
Deschu, C., '40
Eighty to eighty-five
Rudolfs, W., '40
Bishop, J., '40
McChesney, M., '42
Farkas, R., '42
Okerson, W., '43
Thompson, C., '40
Bogdanovitch, P., '40
Burroughs, E., '43
Cramer, J., '41
Lambert, F., '42
Geipel, S., '42
Nafey, R., '42
Coad, J., '40
Farley, C. McL., '40
Matthews, D., '40
Searle, R., '40

Honorable Mention

Stogner, R.
Lamberton, R.
De Voe, G.
Everett, W.
Hausner, G.
Malone, E.

"Argo" Announces Competition For Editorial Board

New Staff Will Publish the Last Issue of this Year's Volume

In the past there has been one major difficulty confronting the ARGO staff at the end of the school year. Since most of the staff are seniors, their graduation makes it necessary for an entirely new group of inexperienced boys to take over the duties of publishing the ARGO the following year. In order to avoid the problems arising from the introduction of an untrained board, this plan has been proposed. A new staff shall be assembled from the student body to assist the present staff in preparing the next-to-last issue of the ARGO. Subsequently, this group will put out the last edition of the school paper unaided by the graduating board. In that way there will be an experienced staff on hand next year, and thus many of the perennial head-aches met with during the production of the first issues of the ARGO will be eliminated. To date, four boys have shown their willingness to come out for the new ARGO staff. It is hoped that many more will come forth in order that a suitable selection of candidates may be made. Prospective candidates are requested to communicate with Editor Gosse or with Mr. Stearns.

Chemistry Students Visit Linden Plant

On Wednesday, March 13, the students in Mr. Rudy's first class in Chemistry took a trip to Linden in order to see the manufacture of sulfuric acid. Several of the day students provided means of conveyance, and the group left the school building at about 12:15.

Upon arriving at the plant, the group proceeded to an official's office where they met Mr. Hannah, who had been kind enough to arrange a trip through the plant under the supervision of two of the concern's employees. Mr. Chaney, superintendent of the plant, and Mr. Smith, his helper, were the two men who acted as guides throughout the visit. The company manufactures not only sulfuric acid, but in reality the production of acid constitutes only one phase of the work that goes on at the plant whose products are numerous and varied.

As the group was interested in seeing the manufacture of the acid from its very beginning, they were conducted first of all to the huge piles of recently mined sulfur which lay heaped. It was crude, since it was mixed with dirt; this condition, however, did not affect the quality of the acid which eventually resulted from the sulfur. Having been mined in Texas, the sulfur had been loaded on boats and thence carried to various parts of the United States and elsewhere. One of the boats was at that moment unloading its cargo at the plant's wharf.

The sulfur was allowed to pour into a large machine much like the modern coal car which regulated the flow of sulfur into a large receptacle where it was heated until it melted. The group was conducted by Mr. Chaney into this building where most of the melting

"I DIDN'T HAVE TIME"

The most common excuse offered in class for homework assignments not done is "I didn't have time." Those oft-repeated four words represent more than an excuse for laziness; rather, they stand for a kingdom of time composed of small fragments of wasted moments during the day. There is, in fact, around each of us a land of opportunity for self-improvement which is, after all, the purpose of education; yet how many of us use these "spare moments"? In later life, especially, people are heard saying "I like music (or art, or literature) but I've never had time to study it." Never is a stupid word when a little real effort instead of wishful thinking would pay dividends of knowledge and pleasure in later life. Time is not elastic—stretching for one man, and shrinking for another—it is, as Shakespeare said, "the very stuff of life, therefore waste it not". Even in this school a foundation may be laid not only for finishing homework thoroughly but also for self improvement through intelligent reading of worthwhile books. In English class for instance, few if any students have bothered to read more than the required list of Shakespeare or the comments of eminent scholars on, say, *Hamlet* which may easily be found in any good library. Most students seem to prefer "Famous Comics" for a literary diet and are able to converse intelligently on the "Superman" or other correlated trash. If every student could ration his time by a fixed schedule, could take useful account of every spare moment of the day, he would have time not only to do school work and to do recreational reading but would also have sufficient time for loafing and the other picturesque pleasures of adolescence.

The only good method for an accurate accounting of the moments of spare time for useful accomplishment during each day is to work out an intelligent schedule, budgeting the hours, and, most important, sticking to this schedule. As a matter of fact only sixteen hours of any school day are taken up by school, meals and sleep. This leaves eight hours for homework, extra studying, useful reading and recreation. An hour or two for accomplishment can easily be found.

ARGO OFFERS NEW SERVICE TO READERS

Fellow students, have you any problems concerning love, melancholy, disinterest in life, gloom, the European situation, the New Deal, problems of a mother, how to win contests, and scores of other such things which space does not permit naming? Does one foul joke at breakfast spoil your entire day? Do you suffer from insomnia? Have you discovered Carter's Little Liver Pills? Have you some secret ambition; some pet hate; a misbehaved cat; or are you troubled by the moths in the sunbeams? And finally, do storms make you happy? We of THE ARGO know that you are all interested in solving your intimate and tricky little problems, and we feel that our wide experience in such matters equips us for the job. All that you have to do in order to have your own problem solved is to write it legibly on a piece of paper and hand it either to Gosse or Stogner. Your thorny little problem, even though it be a stickler, will be permanently attended to by our bureau: "You Mix'em, We Fix'em."

As an example of the kinds of problems that we are sometimes called upon to solve, list to this query. "Dear Editors: What does a pigeon do to get back home when he loses his compass? Signed: Shipwrecked."

Our reply: "The bird, if he is intelligent, will simply use the old beam." So you see, dear readers, that no question is too tough for us to answer, so let us be hearing from you before the deadline shall be set for the next issue of THE ARGO.

FOOTNOTES

by Tony Gosse

Perhaps the not-so-recent Nazi-Soviet accord has a deeper implication than most observers are willing to give it; for, at the signing of the Russo-Finnish peace treaty, the end of hostilities was celebrated with a round of—not vodka, but beer! The Finnish delegates drank with the Russians—ah, for the days of the Borgias.

While on the foreign situation, a spokesman from the Bronx stated that the reason why the sun never sets on the British empire is because the good Lord is afraid to trust it alone in the dark.

Economy has at last reared its dazed head in no less a place than the United States Senate. Of course, this being an election year has nothing to do with it—much! Be that as it may, a picture of speaker Bankhead eating a home-prepared lunch in his office at the capitol has been flaunted in recent newspapers. Strange as it seems, the Senate has been referred to as the "most exclusive gentlemen's club in the world." A rash statement considering that it takes several thousand votes to blackball a hopeful candidate.

Still enmeshed in politics, this item was noted at random. Admiral Richardson's acceptance of an autographed photograph of King George VI of England was represented as "grossly indiscreet" and a violation of the constitution by an "astounded" member of the House. That member with such easily aroused emotions probably just hasn't got the collector's spirit.

Here's a political campaign true to the spirit of early American democracy—no fuss, no frills, almost Lincolnian in its simplicity. Dick English wants to be the corner of a small Georgia county and backs his salty campaign speeches with these printed cards: "Honest inquests with a zip . . . wear no man's collar, not even my own! . . . They gotta be dead before I inquest them . . . Babies kissed and songs led on short notice."

Do you want to buy a jail? If so (head-master take note!) go to Salisbury, Conn., where it was decided at a town meeting that in view of a spotless crime record there wasn't much sense in having a jail. Ergo, the townspeople voted to sell it. That's the American way; in Europe they just shoot the prisoners and use jails as war hospitals.

Reno has at last received its death blow; for a Mr. and we hope Mrs. Finley Teach have offered a formula which assures wedded bliss. This is no Freudian-Songster bit of high jinks but merely sing the years away. They have been at it for 38 years after meeting while singing in a choir. As Mr. Teach delicately puts it, "I liked her soprano, she liked my tenor, and we've been singing happily ever since". The barber-shop quartet is here to stay!

Gone are the days of chivalry when knighthood was in flower and gay Lochinvars rode out of the west with- out whinnying "heigh-ho, Silver." Romance has bowed to finance and slowly our social structure is going to pot. For proof we present this. A young couple walked up to the city clerk of Hornell, New York, and offered \$1.25 for a marriage license. Informed that the fee was \$1.65, the youth pocketed his money and said: "It's too much. I guess we'll wait." It's a hell of a note when love goes begging for forty cents!

Your name please? The marriage license clerk gasped when he got his answer from a young Virginia negro: Judger Virlie Birdiron Massondail William Harris Tecumseh Smith. The girl's name was Hettie Wall.

Some wag recently discovered that the same spaces on a dial telephone as the number of a Mr. Murry of California spelled out O-H-I-O-E-L-L. Now this unfortunate receives calls asking

(Continued on Page 4)

Dear Diary

Mon., Feb. 26:

Two new boarders—the Sexton brothers—have arrived in our midst and they are rooming next to the Romance-language Prof. in the Beta House.

Tues., Feb. 27:

The basketball team met defeat at Carteret, but the swimmers pulled the athletic fat out of the fire by wading into Pingry and emerging victorious.

Thurs., Feb. 29:

The last varsity basketball game was played against Newman. We won 34-22.

Sat., Mar. 2:

Mr. Blake is officer of the week-end and has requested that no one develop the wunderlust which characterized his last appearance in this post.

Mon., Mar. 4:

Monthly examinations started today but of more interest was the basketball game between the boarders and day-students. At the end of hostilities the day boys led 31-27; however, the second team game was won easily by the boarders.

Wed., Mar. 5:

Volley ball has begun in dead earnest. Denton Robinson has gone in for exercise in a big way. Every morning, according to him, he arises early and runs a mile before breakfast. The only running done other than by Denny is the usual spring for the showers before roll call in the morning.

Thurs., Mar. 7:

For most everyone Thursday is laundry day, but to "Wolfie" Stapleton it means another "billet-doux" from Katy.

Sat., Mar. 9:

Joe Pfiffath placed fourth in the interscholastic diving held at Princeton. Nice going, Joe!

THE BOOKWORM

ESCAPE

by Ethel Vance

Little, Brown and Company 1939

Emmy Ritter had been famous once—in her prime she had been the most popular actress in Europe—thrilling thousands with her performances as well as being the idol of hundreds—but in 1935 as she lay on a bed in a German Concentration Camp, she was forgotten—just another prisoner.

A few years before, Emmy had taken her two children to the United States where she put them through school, while she was engaged in Broadway shows. In 1935 when money became scarce, Emmy went back to her native land to try to sell her family mansion . . . She was caught smuggling the money out of Germany and after a short, secret, military trial was found guilty of treason and sent to prison under sentence of death.

While in prison Emmy underwent a serious operation. The young surgeon, who performed the operation, recognized her and made up his mind to help her in any way possible. At the same time, Emmy's son, Mark, arrived to find the whereabouts of his mother.

On his arrival, Mark went straight to the local Commissioner of the Secret Police, but was able to discover nothing. He was told to come back the following week. With that free time on his hands, Mark began to search for an old servant-friend of his mother's. Looking for this friend, Fritz, in one of the out of the way border towns, Mark recognized and talked with a Countess whose acquaintance he had made in the United States. Mark, by a coincidence, met the young doctor who was taking care of his mother, and the two got together and made plans to help Emmy escape out of the country. These plans were strengthened further when Mark found Fritz and made him a member of their conspiracy. All three of them—Mark the doctor, and Fritz—realized that death awaited them if they failed or even made one slight error. On the eve of Emmy's execution the last minute details were finished and the act was carried out like clock-work.

R.N.S.

WHAT-NOTS

by Roy Stogner

Thanks to our new Petty calendars we are able to perceive quite readily that the Spring vacation, like the man from the installment company, is just around the corner. Ship captains all over the world are grateful for the fact that the pre-spring temperatures have not dropped below 14 degrees above, and while they cheerfully whittle on their ship's log, let us await with patience the warm weather that is sure to come by May. To all baseball candidates who return to school after the vacation to get a much needed rest, we advise the bringing back of plenty of woolen garments for the purpose of thwarting the intent of those "balmy" zephyrs that are inclined to haunt the outfield.

I hope that none of you were so unfortunate as to partake of that fudge which Johnny Davis so willingly handed out recently. That stuff was surely potent!

We observed Joe Piffath drinking orange juice the other day. From what we heard about Joe's actions a week-end or so back, we think that his drinking orange juice is about as ludicrous as a NO TRESSPASSING sign hung on a barbed-wire entanglement on the western front would be.

Instructions to a hockey substitute given by the coach nowadays usually consists of the following: "Now go in there and crack a few skulls—if you get a chance to make a goal, so much the better!"

Confidentially, we hear that Bill Keller's income tax report for this year was truly a masterpiece of understatement.

We see that in London jewelers have inaugurated a novel campaign to better their business. They want all fathers to give their wives "maternal rings" at all blessed events. Rubies are for boys, sapphires for girls, both are for twins, and heaven help the wife that goes any further than that.

In a certain room at one of the more renowned colleges of the east a terrible racket in one of the upper rooms disturbed the occupant of the room below at about one o'clock in the morning. The indignant student ran out of the downstairs rooms and shouted: "Shut up that racket!" The person above came out of his room and said: "Sorry, sir. Very sorry. I assure you it will not happen again." The next day local papers reported that a formidable earthquake had occurred the night before at about one o'clock. The fellow from upstairs had, like a true gentleman, apologized for it.

"Percy" Harper, according to well-informed sources, had quite a little difficulty in finding the Newark Academy when we played basketball on their court recently. Dialogue: "Say officer, can you tell me how to get to Newark Academy?" "Sure, Joe. Just about half an hour later the wanderers have wandered over most of Newark, so they decide to ask a cop again for directions. Dialogue: "Say officer, can you tell me how to get to Newark Academy?" "Say, what is this—a game? I just told you guys about half an hour ago how to reach Newark Academy!" Which all goes to show that Corrigan hasn't got a thing on "Percy".

A certain professor in New York University told his students that man was bound by conventionalism and that, consequently, individualism was suppressed. He said that no one dared go beyond existing conventions in his daily life. The next day one of the comedians came to class wearing a bathing suit.

We are, by circumstances, now forced to laugh outright at any naive jokes that one may spring nowadays. Since our shirts became involved in a scrap with that outboard down at the laundry, we haven't any sleeves to laugh up. That establishment is the biggest boon the shirt industry has seen in many a year.

Every safety campaign for safer driving preaches the use of all of one's faculties while driving. Evidently Phil Bogdanovitch, the "One-armed-Romeo" doesn't take such admonitions seriously.

Prep Teams End Season With Victorious Spurt

Rutgers Prep Five Loses to Newark

Before a Capacity Audience Prep Team Bows in Thrilling Contest

Newark Academy met and defeated Rutgers Prep at Newark on February 21, before a capacity crowd. The score was 41-25. The game proved that the Academy boys were a far superior squad. The game had many thrills, as well as good defensive playing on the part of both teams on certain occasions throughout the fray.

The first quarter saw the Academy team start out on their offensive game. Bess was the first one to score in the game and Newark took the lead 2-0. Then Harvey Moynihan cut under the basket to tie the score 2-2. Both teams then put up a stiff defense and neither team scored for a short time. Jim Potter of Prep made his free try and Prep led 3-2. Bess and Paterson each parted the cords for two points each and the Academy led 6-3. Following the example of his teammates, Gumb made a field goal and a brace of field goals to make a total of 11 for the Academy. Capt. Bill Harper made a set shot as well as Harvey Miller for Prep and that ended the scoring for the first quarter with the score standing at 11-7 with Newark leading the Prep.

The second frame saw the Academy score ten more points to Prep's seven. There was almost the same amount of scoring in this second-quarter as there was in the first on the part of both participants in the game. Newark Academy again had the advantage by seven points. Those that scored in this period for the Academy were Campbell with six and Walker with four. Moynihan made four, Johnny Hackett two and Jim Potter one for Rutgers in this period. The score at the end of the half stood: Newark Academy 21, Rutgers Prep 14.

In the second half Newark Academy scored twenty points, while the Prep managed to add eleven more points to their final score.

The line-ups:

Rutgers Prep (25)			Newark Acad. (41)		
	G.	F. T.		G.	F. T.
Meyers, f.	0	0	Bess, f.	6	0 12
Miller, f.	0	0	Dunn, f.	2	0 4
Deschu, f.	0	0	Paterson, f.	1	0 2
Harper, c.	2	1 5	Gumb, c.	1	2 4
Uppike, c.	0	0	Walker, c.	4	1 9
Moynihan, g.	6	2 14	Allen, c.	0	0 0
Hackett, g.	1	0 2	Campbell, g.	4	0 8
Potter, g.	0	2 2	Barber, g.	0	0 0
			Carey, g.	0	0 0
			Aranson, g.	1	0 2
	10	5 25		19	3 41

Rutgers Freshmen Overwhelm Prep On University Court

The Rutgers Freshmen defeated the Rutgers Preparatory School in a game of basketball held at the Rutgers University Gymnasium before a crowd of 1200 people. The final score was 45-17.

The tall freshman team of Rutgers University showed that Coach Kennealy's teachings were not in vain when they played the Rutgers Prep team. The freshmen at home on the enormous court of Rutgers played good basketball, jumped to a 13-0 lead in the first quarter and led the Preps 23-4 at the end of the first half. Sewich the tall center from Perth Amboy led the little Red with nine points. He scored five of these in the first half, while his teammate, Heckman, accounted for five points also. Chandler made a field goal and two free tries, Mengel scored four points, and Jones, Zuela, and Hansen each got two. The Prep forces got their four points when they were scored by Harvey Moynihan on a set shot and by John Hackett on a follow up shot. This was all the scoring that was done in the first half of the game.

The frosh seemed to take it easy in the second half and only scored 22 points, and the Preps urged on

(Continued on Page 4)

SWIMMING TEAM ELECTS HAUSNER

At a recent meeting of the swimming team held at the school building, the swimming captain was elected. Gabriel Hausner received the vote which was announced the following day at recess.

Hausner comes to Prep directly from DeWitt Clinton High School in New York City where he was active on their swimming team, and served as captain in his last year.

Victory Comes to Prep Tank Squad In Last Encounter

In the last meet of the season, the Rutgers Prep mermen traveled to Elizabeth to sink the Pingry swimmers in a thrilling and close battle. Bill Rudolph and Len Waterman gained the only individual first places for the Raritan boys, but by winning both relays and taking most of the second and third places the Prep tankmen won 33-24.

The summaries:
50-yard freestyle—Won by Hamilton (P.); second, Farley (R.P.S.); third, Pratt (R.P.S.). Time: 0:26.

100-yard freestyle—Won by Waterman (R.P.S.); second, Hamilton (P.); third, Wopshare (P.). Time: 1:01.4.
100-yard backstroke—Won by Rudolph (R.P.S.); second, Hueston (P.); third, Woodruff (P.). Time: 1:15.6.

100-yard breaststroke—Won by Holm (P.); second, Ruocco (R.P.S.); third, Styskal (R.P.S.). Time: 1:25.

220-yard free style—Won by Panny (P.); second, Hausner (R.P.S.); third, Staub (P.). Time: 2:45.6.

180-yard medley relay—Won by Rutgers Prep (Rudolph, Ruocco and Piffath). Time: 2:05.5.

160-yard relay—Won by Rutgers Prep (Farley, Hausner, Waterman and Pratt). Time: 1:25.6.

RUTGERS SWIMMERS SINK HIGH SCHOOL

In the first official meet in the history of the New Brunswick High School, the Rutgers Prep tankmen gathered five of the eight first places to win 37-29.

The Prep boys took a comfortable lead when Johnny Pratt won the fifty yard dash and Hausner duplicated with a first place in the 220 yard freestyle. Bill Wildman was the only individual winner for the High School, taking the breaststroke event in good time. Len Waterman, in the 100 yard freestyle, Bill Rudolph in the backstroke, and Harry Rolfe in the fancy diving terminated the scoring for Prep with New Brunswick taking both relays.

The summaries:
50-yard freestyle—Won by Pratt, (R.P.S.); second, Farley, (R.P.S.); third, Benzick, (N.B.H.). Time: 27.

100-yard breaststroke—Won by Wildman, (N.B.H.); second, Gross, (N.B.H.); third, Ruocco, (R.P.S.). Time: 1:16.

220-yard freestyle—Won by Hausner, (R.P.S.); second, Ligh, (N.B.H.); third, Coad, (R.P.S.). Time: 2:53.6.

100-yard backstroke—Won by Rudolph, (R.P.S.); second, Arky, (N.B.H.); third, Cramer, (R.P.S.). Time: 1:16.

100-yard freestyle—Won by Waterman, (R.P.S.); second, Meirose, (N.B.H.); third, Johnson, (R.P.S.). Time: 1:01.2.

150-yard medley relay—Won by (N.B.H.), Arky, Wildman, Benzick. Time: 1:32.6.

200-yard relay—Won by (N.B.H.), Siele, Kunecwicz, Ruck. Time: 2:05.3.
Fancy dive—Won by Rolfe, (R.P.S.); (47.6); second, Piffath (R.P.S.), (42); third, Kunecwicz, (N.B.H.), (30).

Varsity Quintet Wins Last Game At Newman School

Moynihan Star of Contest With Twenty Points In Easy Victory

The Rutgers Preparatory School's basketball team ended their none too successful season by defeating the Newman School's five 34-22. The Prep team played ball as they had never played before in the season. Newman school had defeated most of the teams that Prep had bowed to.

Newman school was the first team to score and not only did they account for the first point but for the next six as well. It looked as if the Prep team was in for another slaughter. Harvey Moynihan made his field goal toward the end of the first quarter and was the only one on the Prep team to score in that period. The score stood at 7-2 for Newman at the end of the first frame.

Newman School held it's lead in the second quarter by scoring five more points. Riley made two pivot shots, and Boldich put his foul try through the hoop for Newman in the second quarter. Captain Bill Harper, fouled on his follow-up shot, made the try for his three points in the same frame, and Dick Meyers made his free toss at the basket. This ended the first half, and Newman led 12-6.

The referee blew his whistle for the beginning of the second half, and Newman took possession of the ball after the tap-off. They followed up this opportunity and soon scored the first basket of the half. It was a lay-up shot by Pone. Prep took the ball from under the basket and began to send the ball basketballwards. Their floor work began to function and after two minutes of play Prep was in the lead 16-14.

The last period proved to be a very exciting time. Coroon and Garrigan each made a field score for Newman bringing the score to 24-20. Bill Harper accounted for two more points and Harvey Moynihan for four for Prep.

The line-ups:

Rutgers Prep (34)			Newman School (22)		
	G.	F. T.		G.	F. T.
Miller, f.	0	0 0	Pons, f.	3	0 6
Meyers, f.	1	1 3	Roche, f.	0	0 0
Morrison, f.	0	0 0	Stillwell, f.	0	0 0
Harper, c.	3	1 7	Eppl, c.	0	0 0
Uppike, c.	0	0 0	Riley, c.	2	1 5

Seton Hall Conquers

Prep Five Receives Crushing Defeat on Home Court

Seton Hall Prep trounced the Rutgers Prep five on their own court on Saturday, February the 17th, to the score of 76 to 19. Seton Hall has lost only one game of their schedule this season and that one they lost to the Navy Plebes of Annapolis by a close margin.

Seton Hall lost no time in routing Rutgers, and the score at the end of the first quarter certainly showed that they were not slackers. Led by Karpowich with 16 points they showed that they were a far superior team than the one that Rutgers Prep put on the floor. The latter scored three points to Seton Hall's 27 in the first quarter. Goonan, and Newman each registered nine points for the Hall, in the second frame, and Captain Bill Harper made two baskets for Prep, and Johnny Hackett made a foul try to end the scoring for Rutgers Prep in the first half. At this time the score stood Seton Hall Prep 43, Rutgers Prep 8.

The boys of Seton Hall had the advantage in the first half and proved that they were a much better squad by

ALUMNI NEWS

Richard Bayne and Raymond Greene, both of the class of '38, attended the annual Rutgers winter sports week-end at Buck Hill Falls, Pa., on January 27th and 28th.

Charles Sullivan, '36, who attends Rutgers University at the present time just to show what a Prep education is worth—was recently on the Vox Pop radio program. As a reward for knowing all the answers on the quiz program he earned the sum of nine dollars.

Richard Wadsworth, '36, one of our former worthy students, visited the school recently for lunch and a long chat about old times with Mr. Brewer and Mr. Rudy.

It also was learned that one of the chosen few, Vincent Fischer, '35, has been recently married to a very charming girl.

Irving Kane, '38, was a recent visitor to the school, staying for lunch and to look up old friends. He is working in the office of his father, who is Mayor of Secaucus, N. J., and has a very plush job.

John A. Klauer, Jr., '31, who graduated from Dartmouth in '36, is now working for the Singer Sewing Machine Co. in Brazil, South America.

Paul L. Miller, '37, who is in the Class of '41 at Princeton University, is a member of this year's varsity polo team.

J. R. Arnold, '39, was admitted to membership in the Whig-Clho Debating Halls at Princeton University recently. Fred Parkinson, '39, is working in Albany at the Hotel DeWitt Clinton as a bell boy and plans to go back to Cornell next year.

Dan Hiestand, '38, is a mechanic for United Airlines at Alameda, California. Bob Beadle, '39, got through at Syracuse at midyears in perfect form.

Jim Miller's, '40, brother John Miller, '34, left recently for Haiti where he is going in the rare woods business for his father. He will be there some time studying the language in the hope of preparing himself for the diplomatic service. He graduated from Cornell at midyears.

Robert Devereaux Seaver, son of Mr. and Mrs. Henry B. Seaver of West Maple Avenue, Moorestown, N. J., a former Rutgers Prep student is engaged to be married. Miss May Emily Voigt, whose parents, Mr. and Mrs. Frank Voigt, of Haddonfield, N. J., announced the engagement recently.

The following members of the Class of '39, all of whom are freshmen at Rutgers University have completed their first terms work with an average of "2" or better: William L. Van Nuis, James M. Wells, John F. Schmidt, and William H. Clark. A "1" average indicates that the students have completed the course with distinction, and "2" average indicates that the work has been of high quality.

SETON HALL GAME

(Continued from Page 3)

adding 33 more points to their team's total score. Every member of the team scored at least one field goal, while two of the Rutgers Prep squad failed to get even one point. Harvey Moynihan accounted for six points, Captain Bill Harper for seven and Casper Deschu made a field goal, Morrison, Potter, Miller and Hackett each got one point on foul tries. The high scorers for Seton Hall were Karpowich with 16, Newman and Goonan with nine, Regan with 8, Pinter with 7, Omert and Norbert with 6 and Michi-

sen with 4.

The final score was Seton Hall Prep, 76, Rutgers Prep, 19.

The line-ups:

Seton Hall Prep (76)			Rutgers Prep (17)				
G.	F.	T.	G.	F.	T.		
Karpowich, f.	7	2	16	Meyers, f.	0	0	0
Newmann, f.	4	1	9	Miller, f.	0	1	1
Kelly, f.	1	0	2	Hackett, f.	0	1	1
Regan, f.	4	0	8	Morrison, f.	0	1	1
Pinter, c.	3	1	7	Harper, c.	3	1	7
Michi-	2	0	4	Udlike, c.	0	0	0
Singer, g.	3	0	6	Deschu, g.	1	0	6
Goonen, g.	2	5	9	Moynihan, g.	3	0	6
Norbert, g.	3	0	6	Potter, g.	0	1	1
Omert	3	0	6				
De Palo	0	1	1				
Timney	1	0	2

CRAMP LOSES MEET FOR PREP SWIMMERS

A cramp, suffered by Johnny Pratt, in the deciding event spelled victory for the Peddie swimmers as the Rutgers Prep mermen were ducked in a thrilling and close meet at the University Pool by a score of 37-29.

In the last event, with the score 29-30 in favor of the Blue and Gold, Pratt, swimming the last leg of the 200 yard relay with a slight lead, suffered a cramp in his stomach.

Bill Rudolfs and Len Waterman in the backstroke and 100 yard free style respectively, were the only individual winners for the Preppers.

The summaries:
50-yard freestyle—Won by Holmes, (P.); second, Pratt, (R.P.S.); third, Masland, (P.). Time: 26.8.

100-yard breast stroke—Won by Adler, (P.); second, Ruocco, (R.P.S.); third, Rinehart, (P.). Time: 1:19.8.

220-yard freestyle—Won by Harding, (P.); second, Hausner, (P.); third, Roon, (P.). Time: 2:50.8.

100-yard backstroke—Won by Rudolfs, (R.P.S.); second, Amundsen, (P.); third, Cramer, (R.P.S.). Time: 1:13.1.

100-yard freestyle—Won by Waterman (R.P.S.); second, Schwenk, (P.); third, Platt, (P.). Time: 1:00.9.

Fancy diving—Won by Fisher, (P.) (53.3); second, Rolfe, (R.P.S.) (46.4); third, Piffath, (R.P.S.) (45.6).

150-yard medley relay—Won by (R. P.S.) Rudolfs, Ruocco, Piffath; second, (P.). Time: 1:35.

200-yard freestyle relay—Won by (P.) Fisher, Harding, Schwenk, Holmes; second, (R.P.S.). Time: 1:48.6.

CHEMISTRY TRIP

(Continued from Page One)

process could be viewed. Upon being melted, the liquid sulfur was conducted by large pipes to another nearby building where it flowed into a large tank whose structure was much like a wash-tub. Beneath this large tank there were two huge revolving furnaces in which the liquid sulfur was burned. The supply of sulfur which ran into the furnaces could be increased or decreased at will by regulating the flow from the large tank above.

Next in the process, the lead chamber process, came the step which is probably the most complicated and hardest to understand in the whole process. The sulfur dioxide is conducted into a tower known as the Glover tower and into the Gay-Lussac tower. In this process certain reactions take place which were, for the most part, explained to the students by Mr. Chaney and Mr. Smith. Finally the gas is conducted into a series of huge lead chambers where it is cooled. It has previously been converted into sulfur trioxide, and the lead chambers are where much of the acid forms.

Sulfuric acid which was manufactured by this process was shown to the group, and two tests were made by Mr. Smith and a worker to demonstrate certain tasks that are involved in the manufacturing procedure. The group then left the lead chamber process and went down to the wharf where they saw the unloading of the sulfur.

From the wharf the group was conducted to another huge building which housed the machinery which produced sulfuric acid by the contact process. When this particular company started its business in 1916 or thereabouts, only the lead chamber process was known or had been perfected. It is only within the last eleven years that the contact process has existed at this plant. Of the two methods for producing sulfuric acid the contact process is the better since it produces acid of a much stronger concentration.

Mr. Chaney explained that accidents in the plant were very few because the seriousness of the business was impressed upon the employees. It had been five years, the group was told, since any serious accident had occurred. Safety campaigns, the group was told, were held regularly.

DR. TWEEDY'S SERMON

(Continued from Page One)

provides respect for our betters, but, when turned the wrong way, it wreaks havoc. The love of thrills can help, but it does much harm. When the war drums beat and the parades go by, think ahead to what they mean; do not, under any circumstances, go into anything, such as war, without first considering the result.

Saul abused his many opportunities by using them for himself and not for the benefit of others. The world is divided into two parts; the "Haves" and the "Have-nots". It is the duty of the "Haves" to aid the "Have-nots". Saul did not do this. He played the fool. The whole future of the world depends on what the people of today do with their opportunities.

RUTGERS CONCERT

(Continued from Page One)

there comes a heavenly ray of peace after the turmoil. This composition is very autobiographical. Miss Kaskas' next song was "the Credo" by Gretchanoff which represents essentially the chants used in the liturgy of the Russian Orthodox Church. Miss Kaskas was well received and for her encore sang "Sing Maiden Sing".

After a brief intermission, the University singers, conducted by James Giddings, gave four short selections. The first two, "Feasting I Watch" and "Fain Would I Change that Note", pleasant little pieces, were followed by "Wedded Bliss" by Josef Haydn, which, in its rollicking humor was reminiscent of Gilbert and Sullivan. "Incantation", a Finnish chorale by Aksel Tornudd was a fine example of that country's nationalistic style. Simple, yet dramatic, it got much praise.

Anna Kaskas appeared again to sing three selections. "Autumn", a quiet offering was followed by the sprightly "Heffire Cockoo Fair", a favorite concert piece. Miss Kaskas finished with the aria "O Don Fatale" from Verdi's "Don Carlos". Much was the applause, and Miss Kaskas proceeded to sing three encores "The Journey", "Love's Philosophy" from a poem by Shelley, and "The Lord's Prayer" by Millat.

As a fitting climax to the program the first performance of a "Fantasy on American Folk Ballads" by Richard Donovan was presented.

RUTGERS '43 GAME

(Continued from Page 3)

when Harvey Moynihan made eight points, accounted for 13 points in the second half. Prep could not understand the plays used by the Rutgers University yearlings and could not stand up against the fast offensive that the little Red team possessed. The final score was Rutgers Freshmen 45, Rutgers Prep 17.

The line-ups:

Rutgers Freshmen (45)			Rutgers Prep (17)		
G.	F.	T.	G.	F.	T.
Miller, f.	0	1	Carr, f.	2	0
Meyers, f.	0	1	Chandler, f.	1	2
Potter, f.	0	0	Protosow, f.	3	0
Harper, c.	1	1	Mengel, c.	3	1
Hackett, g.	1	0	Brightenback, f.	0	0
Morrison, g.	0	0	Tinsley, f.	0	0
Moynihan, g.	3	2	Sewich, c.	4	1
Udlike, c.	0	2	Heckman, g.	4	1
