gan in earnest. Gross and Ziegler furnished the battery, and they were most efficient all season. We were defeated in our first game by Montclair H. S., but the following Saturday we settled down to business and beat Drake College of Orange in a ten inning game, 5-4. Next, we went to Paterson and lost to Paterson H. S. by a narrow margin, the score being 4-3. The game was closely contested throughout and was marked by the strong stick work of Ziegler. Trenton H. S. was the next on the list and when we lined up for the game we found that we were up against the same pitcher who shut us out last year with one scratch hit. However, we started in confidently and in three innings and a half, drove out three long hits which netted us two runs. Unfortunately rain prevented further playing and we were deprived of an almost certain victory. Again we went to Trenton the following week and played Trenton Model. By heavy hitting and clever base running our boys had no trouble in crossing the plate a number of times. The game resulted in a walkover for our team; the score being 14-5 in Prep's favor. The last game played was against Pennington Seminary. This game was the most closely contested game of the season and was full of surprises for both sides. Gross pitched a fine game for Prep. and our fielding was of a high standard except for a couple of erratic throws in one inning. The score favored first one team, then the other, and resulted 7-6 in favor of Pennington.

surely gained their point. No one can deny that the United States has been most successful, when "The Success of a Nation" has been related to him. No one can form a better model for the United States than Scandinavia, pictured to us in "A Model Country." One cannot help congratulating your editorials.
